

# **PURVIS** INDUSTRIES

## **PRECISION** INDUSTRIAL SERVICES

Whether it's replacing liners in your mill or doing gear alignments, Precision offers complete plant maintenance and retro-fit services. We repair rotary kilns, mills of all types, coolers, bag houses, conveyor systems, drag chains, and much more.

### **Mechanical Services**

### **Electrical Services**

### **Equipment Installation**

### **Plant Construction**

**SETTING THE STANDARD  
FOR HEAVY INDUSTRIAL SERVICE.**

**Precision Industrial Services** is a industrial contractor that specializes in mechanical and electrical projects, steel fabrication and erection, equipment installation, plant relocations, thermal imaging & analysis, full civil and concrete services, and much more.

Precision was founded by a group of individuals that saw a need in our industry for a contractor that will serve its customer base with honesty and integrity and with only the customers best interest in mind. Each of the founding members brings a different talent to the table that are unique from the other. These talents combined, we feel, makes us the most dynamic contactor in our industry.

Precision became a part of the Purvis Industries family of companies in 2021, allowing us to offer an even more diverse array of services.
